***Fall 2019 Technical
Menswear***

Walk, Cycle, Metro,
Greener Is Happier.

Innovative fabrics with ergonomic and unencumbered cuts, provide excellent range of motion throughout the layering system.

A new dimension of **freedom** with functional, **masculine**, and **urban** tailoring. Designed and Made in **Canada**.

ALL DAY COMFORT :

A **Merino Wool base layer**, pulls moisture away from the body, giving incredible comfort & natural odor control.

(Kuru Top, Style #3001)

Thumb-holes help prevent sleeves from slipping and bunching, while holding rails or straps on train and bus rides. They cover wearers palm and back hand, keeping them warm.

Tailored blazer and

Pants are made with water repelling fabric, with high performance 4 ways stretch fabric.

Articulated details give wearers a greater range of motions whether they are biking, walking or dashing for public transit. (Cebu Blazer, Style #5001 and Tim Pant Style #1201)

Inner zippered, laser cut pockets.

Two-piece tailor sleeve with articulated elbow, greatly enhances comfort and mobility.

Removable buckle strap, with integrated fire starter and whistle.

Tactical Grimloc, MOLLE D-ring Carabiner.

Articulated knee, allows for gather free bending and squatting without bunching.

An interior cross body reflective strap, allows wearers to carry over the shoulder when not in use. A breathable and stretchable mesh backing maximizes ventilation, for comfort and freedom of movement.

Hato top is made with a **Merino Wool** base layer that provides excellent temperature regulation. In cold weather, its fibers keep the wearer warm due to their fine crimp structure, which retain and insulate air. In hot weather, it has cooling effect due to wicking high breath-ability.

Merino wool is dirt and water repellent, with natural odor resistance. (Hato Top, Style #1003)

Asami Jacket is made with high tech soft-shell fabrics, it's **windproof, waterproof and breathable**. Featuring Zip off detach sleeves, for adapting weather conditions and range of motion. (Asami Jacket, Style #1301)

Namika Short is made with innovative **4 way-stretch** fabric that is extremely strong and durable, providing outstanding comfort all day long. Fabric may be treated with Durable Water Repellent (DWR). (Namika Short, Style #2101)

Namia Short: two large pockets with magnetic closures on each side for easy and fast access for everyday carry (EDC).

Articulated and removable sleeves.

Articulated and detachable seam sealed hood.

This tight has two side pockets to store phones, wallet or transit cards. (Uigi Tights , Style #5001)

Everyday carry holder.

Uigi Tights are made with recycled Chitosante fabric that has; anti-bacterial, wicking, UPF50, and DWR features.

Tokei Jacket is made with **Gore-tex**, a durable **waterproof**, **windproof**, and **breathable** fabric. Gore-tex keeps you dry, warm with an insulating layer, and comfortable in a wide range of climates.

Use and protect your **smart watch** in the rain, touch gestures still work.

(Tokei Jacket , Style #45001)

Sango, 100% Polyester soft-shell fleece, with waterproof, windproof, and breathable properties.

Novelty Item: Sango, Zero Waste Poncho

This classic **zero-waste** rain poncho has more in common with a technical sport jacket. It's specifically designed for outdoor enthusiasts, protecting them from rain and cold wind, even in downpours. A handy pocket on the front, brings an easy reach to wallets and belongings. The poncho can be neatly stowed into its own front pocket for storage.

Laser cut pockets, with top stitching and seam sealing finish the whole garment, making it completely waterproof. Snaps and armhole closures provide optimal mobility.

Sango, was inspired by military technical rain ponchos, with large pockets made for packable gear.
(**Sango** Poncho , Style #3301)
